Explanation of symbols used :—B.—Births ; B.R.—Birth Rate ; C.—Cholera ; S.—Smallpox ; P.—Plague ; F.—Fever ; D.D.—Dysentery and Diarrhoea ; R.D.—Respiratory Diseases ; M.D.—Maternal Deaths ; D.R.—Death Rate ; I.D.—Infantile Deaths (included in total deaths).

REMARKS

The figures of births and deaths shown in this statement for week ending the 8th November, 1952, relate to 180 towns with an estimated population of 24,158 thousands. The total number of towns is 281 and their population is 34,764 thousands. Thus 64% of the total number of towns representing 69% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 18,594 and 8,331 representing birth and death rates of 40.0 and 17.9 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 156 towns with an estimated population of 21,273 thousands. Information about Bihar and West Bengal could not be included. The total number of towns is 235 and their population is 29,570 thousands. Thus 66% of the total number of towns representing 72% of the total population is covered. The numbers of births and deaths recorded in these towns were 16,614 and 7,550

representing birth and death rates of 40.6 and 18.5 per thousand of population respectively. The table at the end gives the position by States.

Strivilliputtur in Madras was the only town which recorded a high death rate of 58.3 per thousand of population and this high death rate was not particularly due to deaths from any of the specified causes.

(B) States (Part B).—The data here relate to 24 towns with an estimated population of 2,885 thousands. The total number of towns is 46 and their population is 5,194 thousands. Thus 52% of the total number of towns representing 56% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,980 and 781 representing birth and death rates of 35.7 and 14.1 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
